

Queen Margaret's School for Girls

We're a small, flexible boarding and day school in the truly inspirational setting of the North Yorkshire countryside.

A caring and supportive home from home, we nurture girls aged 11-18 and provide everything they need to become the best they can be.

“I like how timetables are personalised. It means I’ve been able to have a go at everything and have found the perfect balance for me.”

Lily, Upper Sixth
Flexi-boarder

Our girls

Queen Margaret's girls are different. They're what sets us apart from other schools. They're doers, and they don't hold back – they step up and get involved. They challenge stereotypes, shift perceptions and continually surprise.

They're the future.

**The tenacious, ambitious
women of tomorrow.
And it's here where they'll
gain all the support, tuition
and confidence they need
to take the world by storm.**

Our girls are the focus of life at Queen Margaret's and are at the heart of everything we do.

It's this focus and an individualistic approach that allows our girls to carve their own path, and flourish as passionate, independent women of the future.

“You’re encouraged to follow your passions here. It’s given me the confidence to get up on stage and play in front of a crowd.”

 | Lucinda, Year V
Day Girl
