

# “My time at Queen Margaret’s has been one of the most important experiences of my life.”

**If you are still asking yourself whether Queen Margaret’s could be the right place for you, let me tell you my story:**

My name is Alice, I am 17 years old and I am from Berlin, Germany. In 2022 I spent a term at Queen Margaret’s. After two challenging Covid years I had the strong wish to broaden my horizons, to get to know myself better, and to become more independent. I came across Queen Margaret’s through a German organisation and immediately fell in love. Let me tell you, the school is even more beautiful in real life than it seems on the website.

The school is surrounded by beautiful nature. I loved going on daily walks. Being this close to nature helped me connect with myself and, especially after a busy school day it helped me to be calm.

I understand that the thought of leaving your home can be very scary at first. I know that feeling very well. But I can promise you – it will be worth it. When you come to Queen Margaret’s you will meet wonderful teachers. All of them are inspiring and encouraging. They teach with passion and compassion. I have never had this much fun in class before. Furthermore, they all want you to succeed.

**At Queen Margaret’s they focus on your strengths, not your weaknesses. They assist you in becoming the best version of yourself.**

One of your biggest fears might be whether you are going to fit in with the other students and whether you will find friends. Let me tell you what I have learned during my time at Queen Margaret’s; do not hide your true self, get out of your comfort zone, be open. Everyone is incredibly lovely. Queen Margaret’s organizes lots of events and Community Weekends, there are plenty of chances to get to know everyone, no need to worry about that.

**What I loved about attending an all-girls school is the fact that you can always be 100% yourself. It is not about who is the prettiest or who wears the trendiest clothes. It is all about showing your real face. There’s always a girl power atmosphere.**

On top of that, Queen Margaret’s allows you to try a multitude of new hobbies. Personally, I always wanted to learn how to play tennis. It was an amazing opportunity to discover new talents.

My time at Queen Margaret’s has been one of the most important experiences of my life. I met countless wonderful people and made memories I will cherish forever. I also learned so much about myself and succeeded in different areas.

**If you get the opportunity to come to QM – take it. You will not regret it.**
